PROFESSIONAL SUMMARY

Passionate Self-Taught Full-Stack Developer and Higher-Technician Student in Web & Mobile Development. Specialized in building modern, high-performance web applications, AI-driven solutions, and cyber-themed interfaces. Possesses solid hands-on experience across frontend, backend, and database architectures with a strong focus on clean, scalable code and exceptional UI/UX aesthetics.

EDUCATION & QUALIFICATIONS

BTS in Web & Mobile Development — CSFM Nabeul, Tunisia **Sept 2026 – Present**

- Specialized vocational higher education in full-stack architecture, mobile application creation, database design, and software engineering.

Baccalaureate in Computer Science (Sciences Informatiques) — Lycée Rue Ali Belhouane, Nabeul **Graduated June 2026**

- Focused on algorithmic logic, database design, software development fundamentals, mathematics, and physical sciences.

KEY PROJECTS

Nexora Agency Platform

- Designed and shipped a sleek digital agency landing page with modern dark-mode UI, custom typography, and high-performance interactive components using Next.js, React, and Tailwind CSS.

Bac Fel Jib AI

- Developed an AI-powered educational assistant tailored for Tunisian Baccalaureate students, featuring dynamic chat interaction, essay writing methodology, and exam prep tools.

AEGIS Security Console

- Built a high-contrast cyber-themed web console interface featuring terminal simulations, real-time security dashboards, and responsive layout structures.
